**Patient Rights:** Your physician office must permit patients to request restrictions of their protected health information. Patients may request restriction of uses and disclosures of protected health information to carry out treatment, payment, and healthcare operations; disclosures to a family member, other relative, close personal friend, or any other person identified by the patient of protected health information directly relevant to such person's involvement with the patient's care; and disclosures of protected health information to notify or assist in the notification of a family member, a personal representative, or another person responsible for the care of the patient of the patient's location, general condition, or death. All requests for restrictions must be submitted in writing.

**Physician Office Responsibilities:** Your physician office is not required to grant most restrictions and is precluded from granting restrictions that would violate the law. If we agree to the restriction, we will comply with it unless you ask to terminate the restriction or we notify you that we are terminating the agreement. ## **FINANCIAL POLICY**

Our commitment is to provide the very best medical care to our patients while recognizing the need to limit services to only those that are necessary for each patient. To meet this commitment, we recognize the need for a definite understanding and agreement concerning our patient’s healthcare and the financial arrangements for that medical care. Your clear understanding of our financial policies is important to our professional relationship. Please contact our billing office regarding any questions about our fees, financial policies, your insurance coverage, and your financial responsibilities.

**Professional Fees:** Our fees for medical services are comparable to other similarly trained physicians in the community and reflect the complexity of your specific needs, the physician time dedicated to your care, the specialized nature of the doctor’s education/training , and support costs associated with providing and coordinating your care. We will be happy to provide you with detailed fee information at any time.

**Patient Payments:** Co-pays, deductibles, services not covered by your insurance plan, and outstanding balances are due at the time of your appointment. Payments may be made with cash, check or credit card. Returned checks will be subject to the fee allowed by state regulations. Please let us know if you are having a particular financial problem and we will try our best to be understanding. Please feel free to discuss mutually acceptable payment arrangements with our in house Financial Coordinator or our Central Billing Office.

**Insurance Payments:** We participate and accept assignment of payment with most major insurance plans in the area. Even though we may submit insurance claims for you, your insurance coverage is a contract between you and your insurer and you are still responsible for payments and services regardless of the amount your insurance pays. If your insurance company has not responded to us within 60 days of a filed insurance claim, the charges will be sent to you directly and you will be responsible for their payment as well as for payment of any other charges incurred consistent with this financial policy.

**Restricted Service:** While we always see patients for emergency care, routine care will only be given to the patients whose accounts are current or who have made financial arrangements with us and are maintaining the conditions thereof.

**Medical Forms:** The completion of disability forms, FMLA forms, and other supplemental insurance forms all require physician and staff time to complete. Accordingly, a fee of \$25.00 will be charged to complete these forms. The fee must be paid by cash or check prior to the completion of the forms.

**Clinical Visit:** Please note that if a patient comes in with an appointment or has a walk in appointment on the clinical staff schedule, charges will be filed with your insurance for services provided during your visit. As a result of charges being filed with your insurance, it is possible that your insurance may apply a co-payment or coinsurance for the visit.
